- Description of [Regional Governance](#)
- [Statutes of the Association, Association Rules](#)

Organization of the Chapter

- ❖ Responsibility for tasks of the Chapter for strategy implementation and achievement of its goals is broken down to the resorts described in the Association Rules.
- ❖ To support this, there are Teams, Circles, Local Groups and Projects. Circles, Local Groups and Projects are the organizational elements of the Chapter to implement its strategy and tasks.
 - ✓ **Board** Meeting of the board of directors to plan and control the tasks of the chapter necessary to fulfill the purpose of the association.
 - ✓ **Board Resorts** are responsible for tasks in the chapter and serve to achieve the strategic goals of the chapter.
 - ✓ **Teams** support the department in certain tasks and consist of members of a resort.
 - ✓ **Circles** can be located within a resort or operate across several functions; responsibility for a Circle is assigned to one resort in each case.
 - ✓ **Local Groups** provide chapter services at the local level and are each assigned to a regional resort.
 - ✓ **Circles and Local Groups** are generally designed to be permanent. The closure of a Circle results from changes in strategy and tasks of the chapter.
 - ✓ **Projects** also serve the chapter's task fulfillment and strategy implementation. They are temporary in nature.

As volunteer, which are the different Circles where you could be part of and contribute?

* after election for the board of directors

Chapter Governance

Principles

- **Regional and Local Ownership:** Chapter activities take place mainly in the local groups. Local volunteers initiate and implement events and all other activities
Teams in the region with the local groups are the foundation of the PMI Germany Chapter. We focus on contributing to the network instead of striving for a position in the hierarchy.
→ As much autonomy as possible, as few central functions, as necessary.
→ Regional service delivery is owned by the regions.
- The Region Circle initiates, picks up, drives and supports activities in the local groups.
- We communicate transparently, with all stakeholders.
- We believe in the idea of servant leadership. Servant leadership follows the idea to develop the target group in a positive way in order to enable them to make a positive contribution and to achieve the goals set.
(Reference: <https://www.greenleaf.org/what-is-servant-leadership/>)
- Our appreciation is dedicated to the time and energy that volunteers contribute to deliver value and to ensure the future of our chapter. We do not want to overburden the self-commitment of members, but rather recognize the contributions of volunteers for the benefit of the chapter and PMI, as well as the project management profession.
- With mutual respect and observing ethical principles, we support applying the ethical principles according to the PMI Code of Ethics and being open to others (diversity).

Chapter Governance

Organisation and Leadership

- The association is represented and managed by a board with 11 current members (between five and 15 are possible).
- The board is **elected for a period of three years** by the general meeting; re-election of members is possible.
- The board assigns **volunteers** to various roles as needed to accomplish tasks. Volunteers do not have a fixed term of office. However, "commitments" are expected to be met.
- The Board is supported by other volunteers and by **Circles** (working groups), which can be established permanently or temporarily.
- Each region has a **Leadership Team** that initiates and coordinates regional activities. The regional leadership team is headed by a board member responsible for the region. The leadership team is staffed according to regional requirement criteria and current activities.
- The **Local Groups** provide the "tangible environment" for members:
"Where the rubber meets the road" → events, working groups, personal contacts.
- A **Local Group** is coordinated by a **volunteer** who is a member with the regional leadership team or works closely with it.

the top right corner of the menu.

Collaboration with email

E-Mail

- **Basically:** As part of your volunteering, you will receive an e-mail address from the chapter.
- **Obligation to use:** This e-mail address **must** be used for internal and external communication.
- **When will I get it?** You will receive the e-mail address as soon as you start working as a volunteer and you need an e-mail address for your commitment as a volunteer.
- **Restrictions:**
 - Unfortunately, it is no longer possible to connect this medium to the private Outlook. The web version (<https://outlook.office.com/mail/>) must be used – or the mobile app on your smartphone.
 - A permanent forwarding of chapter mails to your private e-mail address carries a risk for the association, is prevented for security reasons and leads to irritating error messages for your comrades-in-arms who want to send you e-mails to your chapter e-mail address. So, we may ask you NOT to set up a PERMANENT redirect.

Additional information on collaboration with e-mail

- If you should get your own office account and your own mail address with the ending ...pmi-gc.de, [>>> here](#) is a [template](#) for **your signature / binder** for mails concerning our chapter.
- Informative e-mails to a larger circle of recipients ("Infomail" or "Newsletter" character) are normally to be sent using the Chapter's standard solution for newsletters (currently AcyMailing). In justified exceptional cases, such a mailing may also be sent via the Chapter's standard e-mail solution (currently MS Outlook). In this case, however, **all recipient addresses must be placed in BCC**, neither in TO nor in CC. An unnecessary and therefore not data protection compliant disclosure of especially private email addresses can be effectively avoided this way.
- When communicating electronically between Volunteers, **always make sure to use only required recipient addresses**, preferring to use chapter addresses rather than private or business addresses.
- It is also advisable to check your mail address from time to time for misuse by means of a leak check.
