Juggling/JIRA Demo

POWER KANBAN SUMMARY

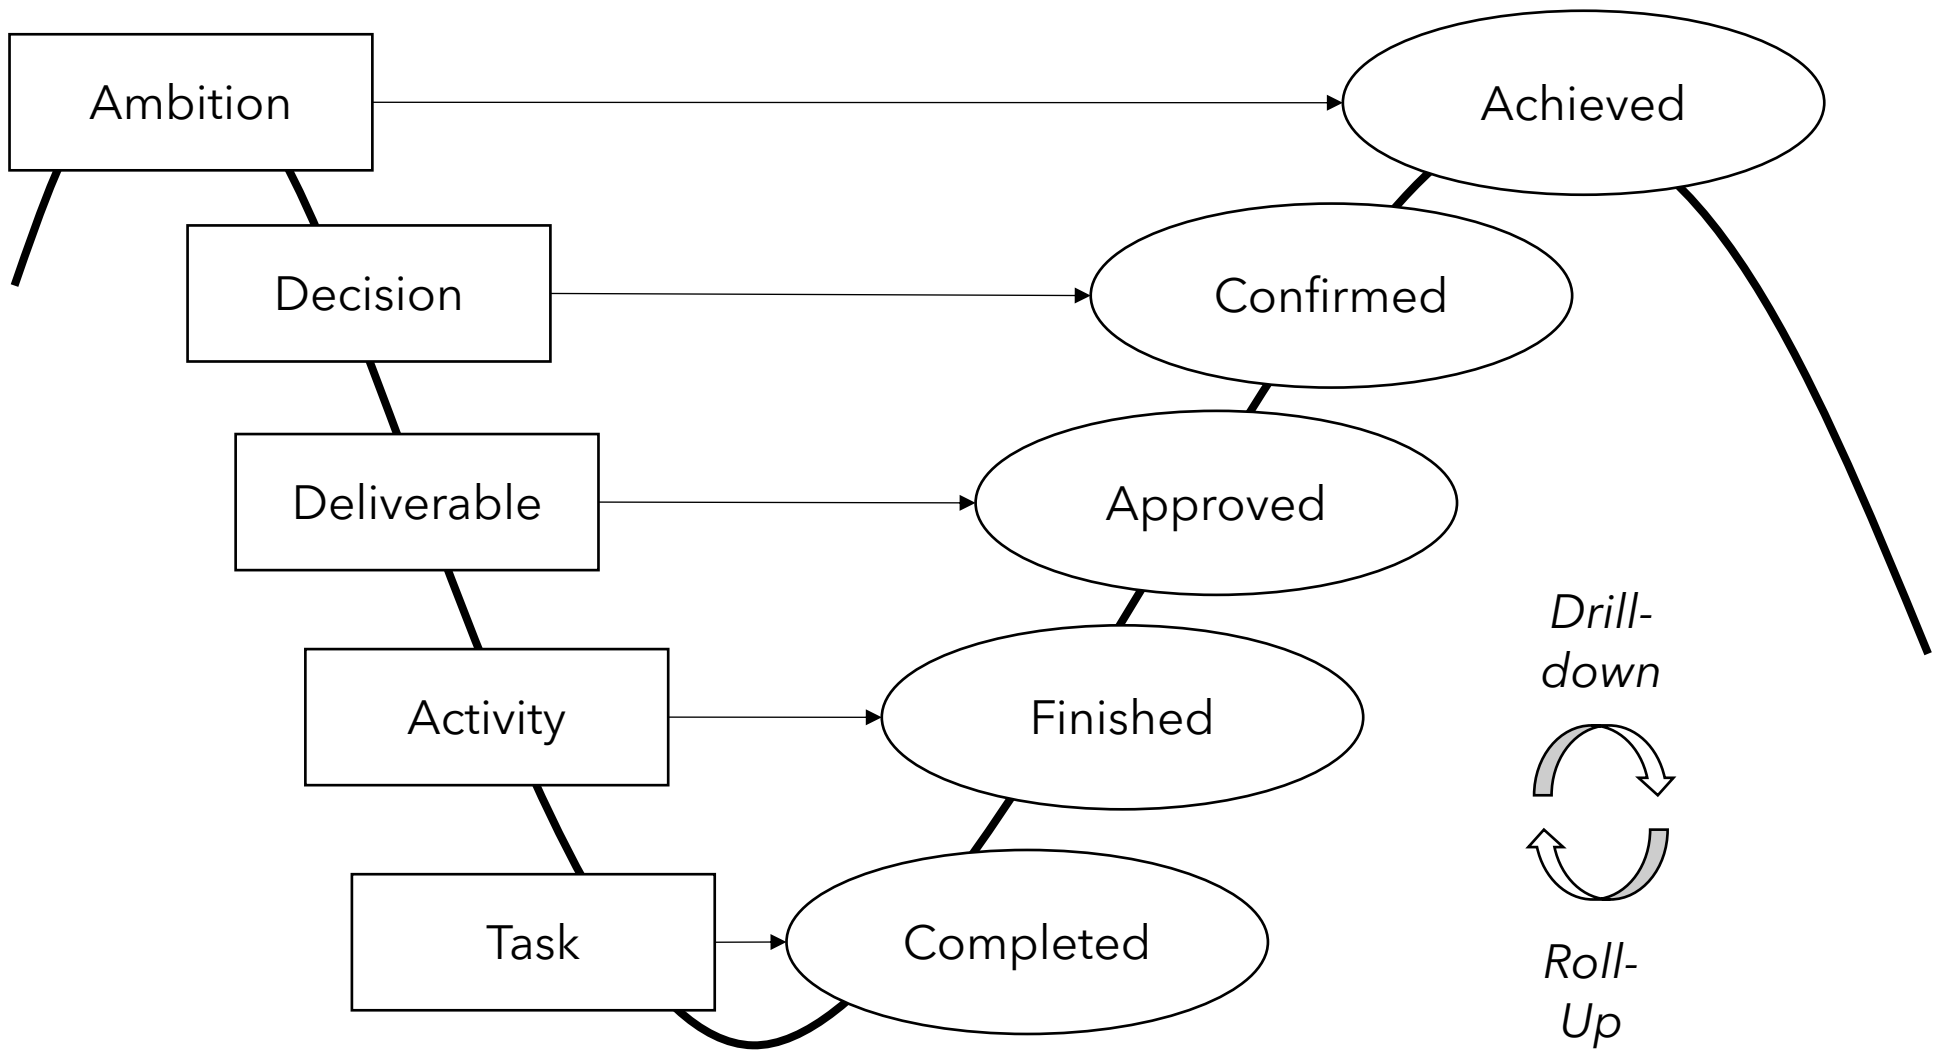

- Combination of Project Meta Data technique and Kanban
- Improve information awareness
- Distribute information
- Improved information access
- Enhance coordination
- Single source of information
- Different views, reducing the number of individual logs

3. AGILE ROLLING WAVE

“Law of diminishing returns”

Epic level: Epic Roadmap

Zero Emission Dream House

Renewable Energy

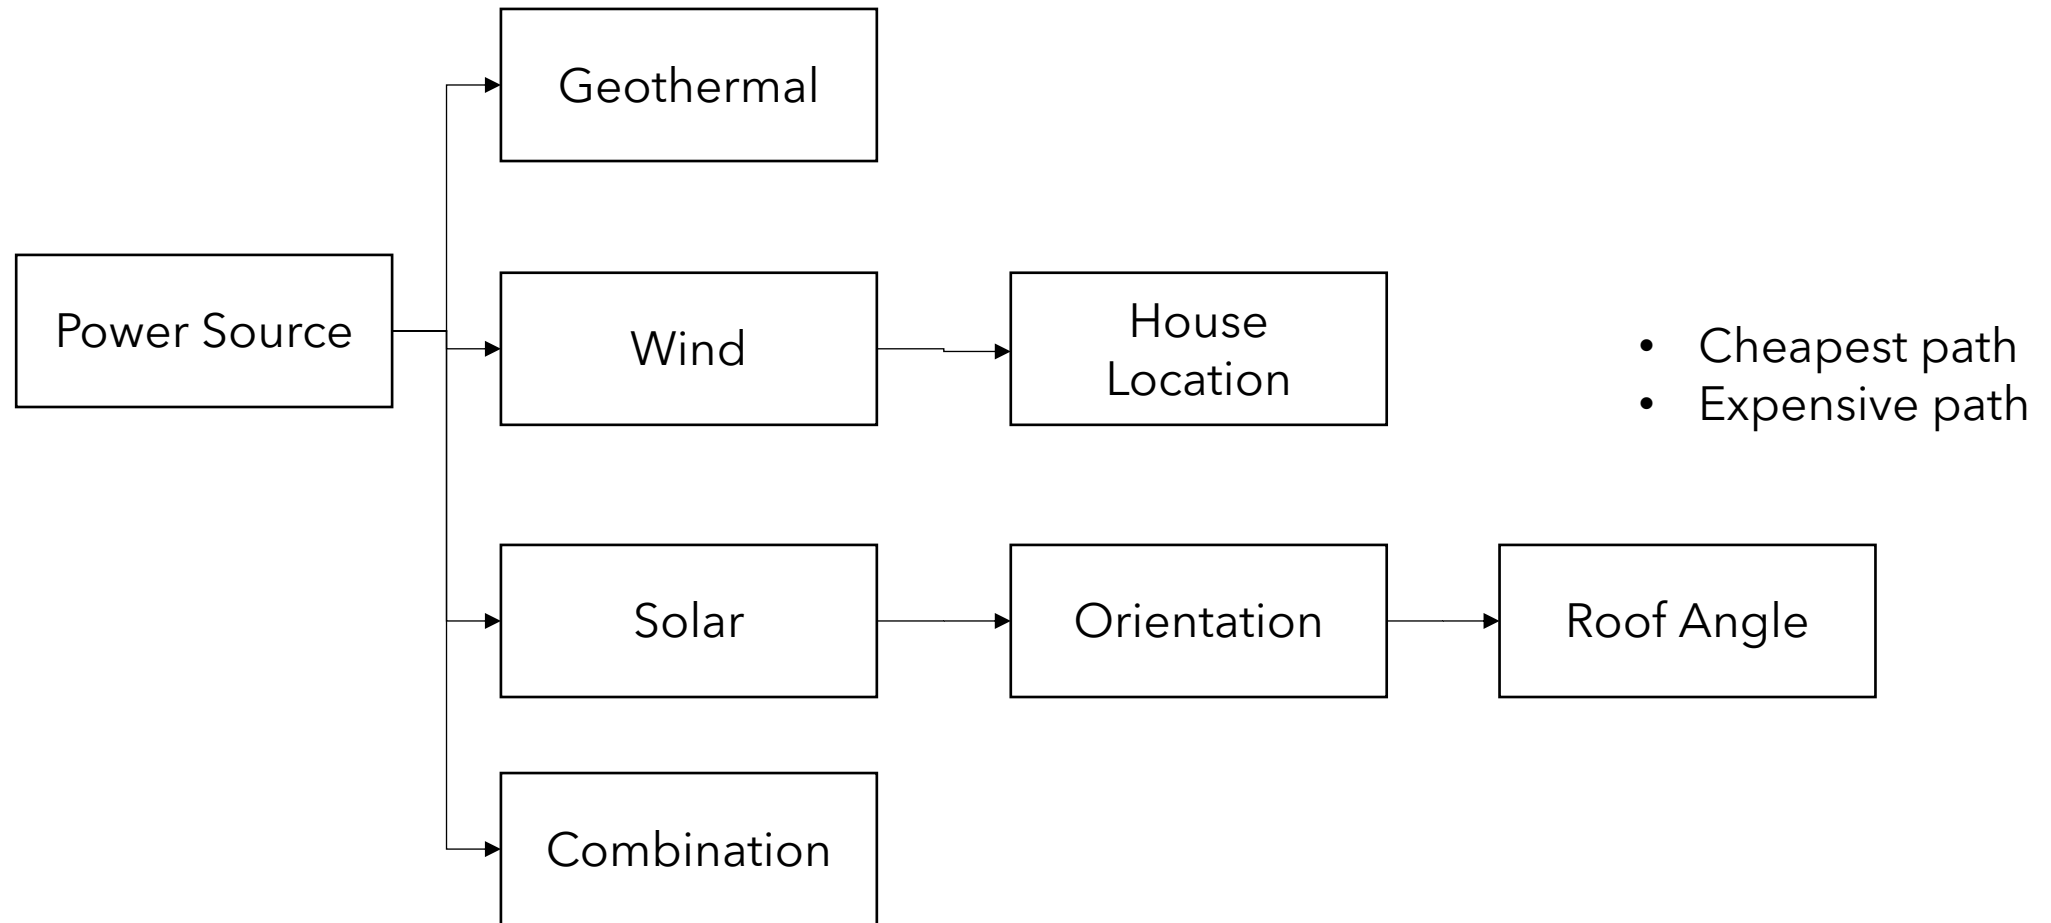

Swimming Pool

Green House

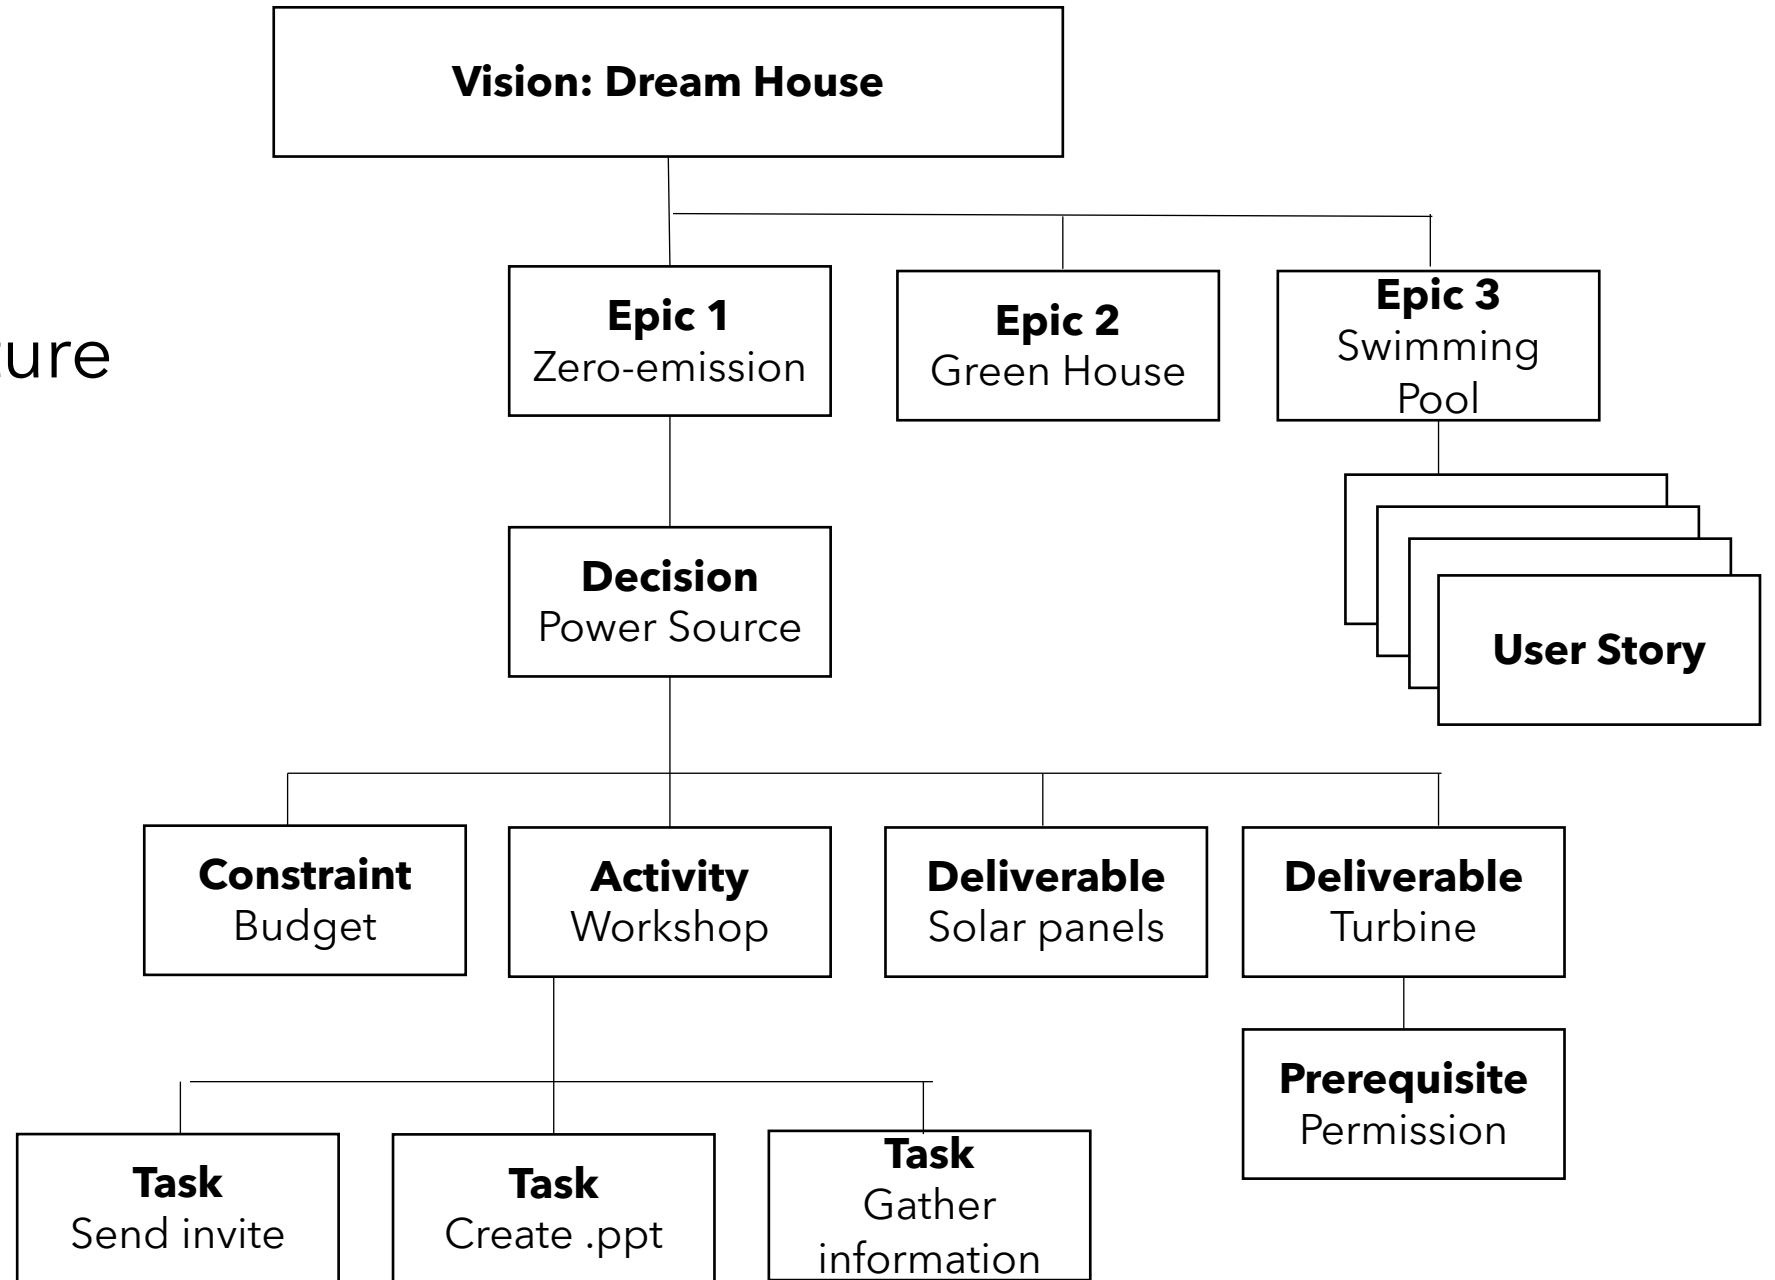

Calendar plan for full project

Decision level: Decision Network

Deliverable level:
Information
Breakdown Structure

- *Combine relative and absolute estimation*

Activity Level

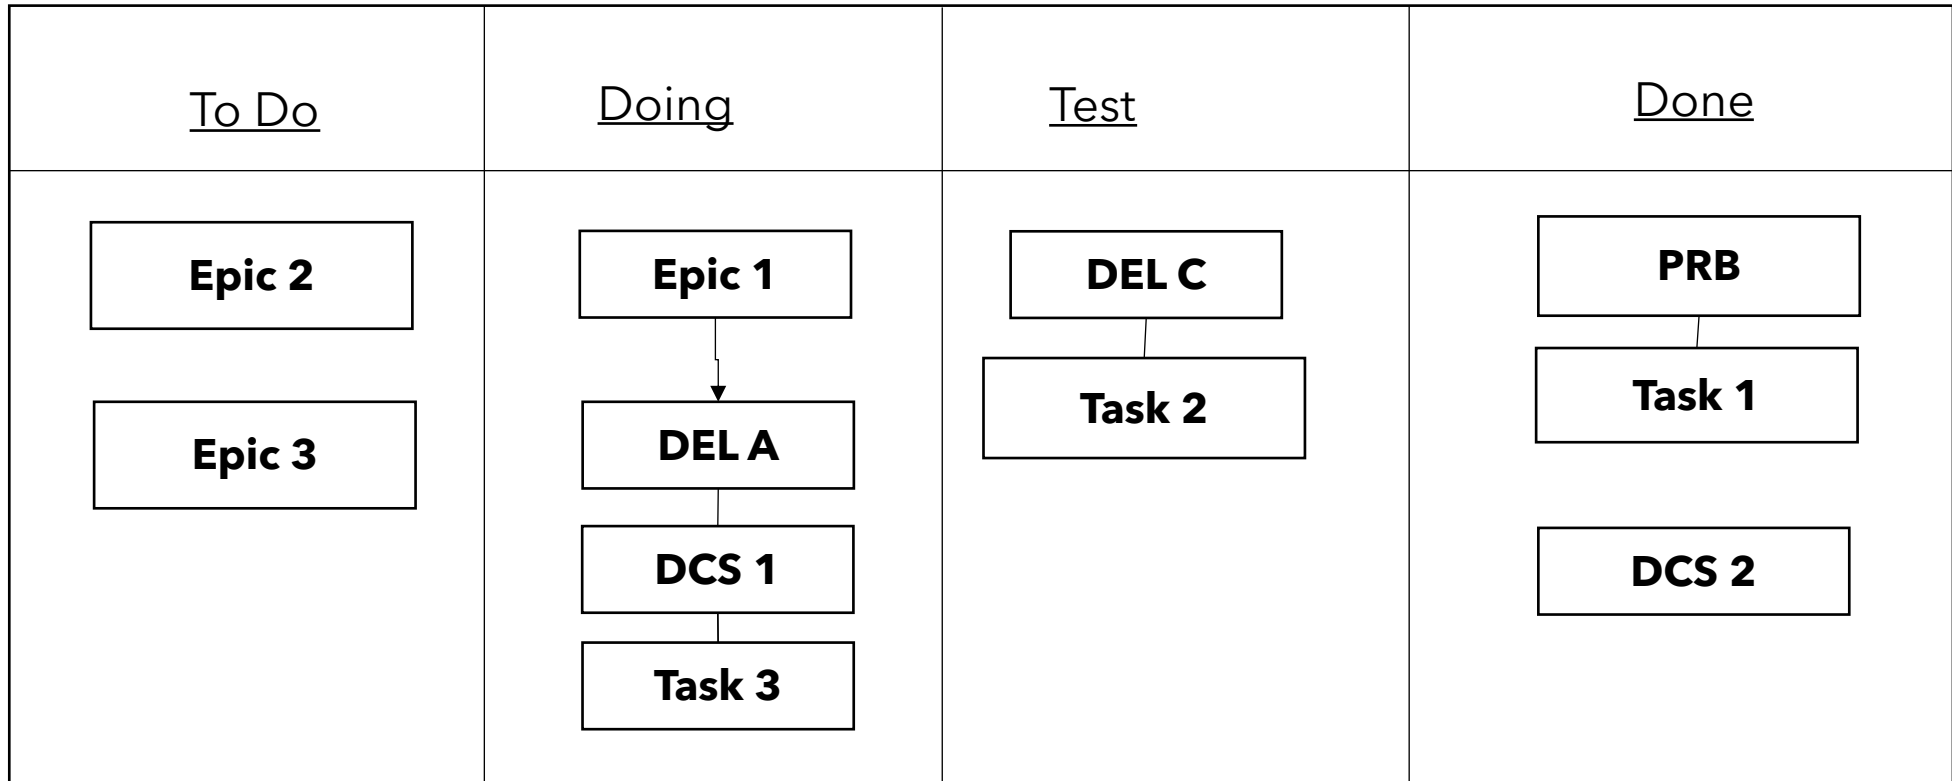

Pert

Gantt

Task Level: Kanban Board

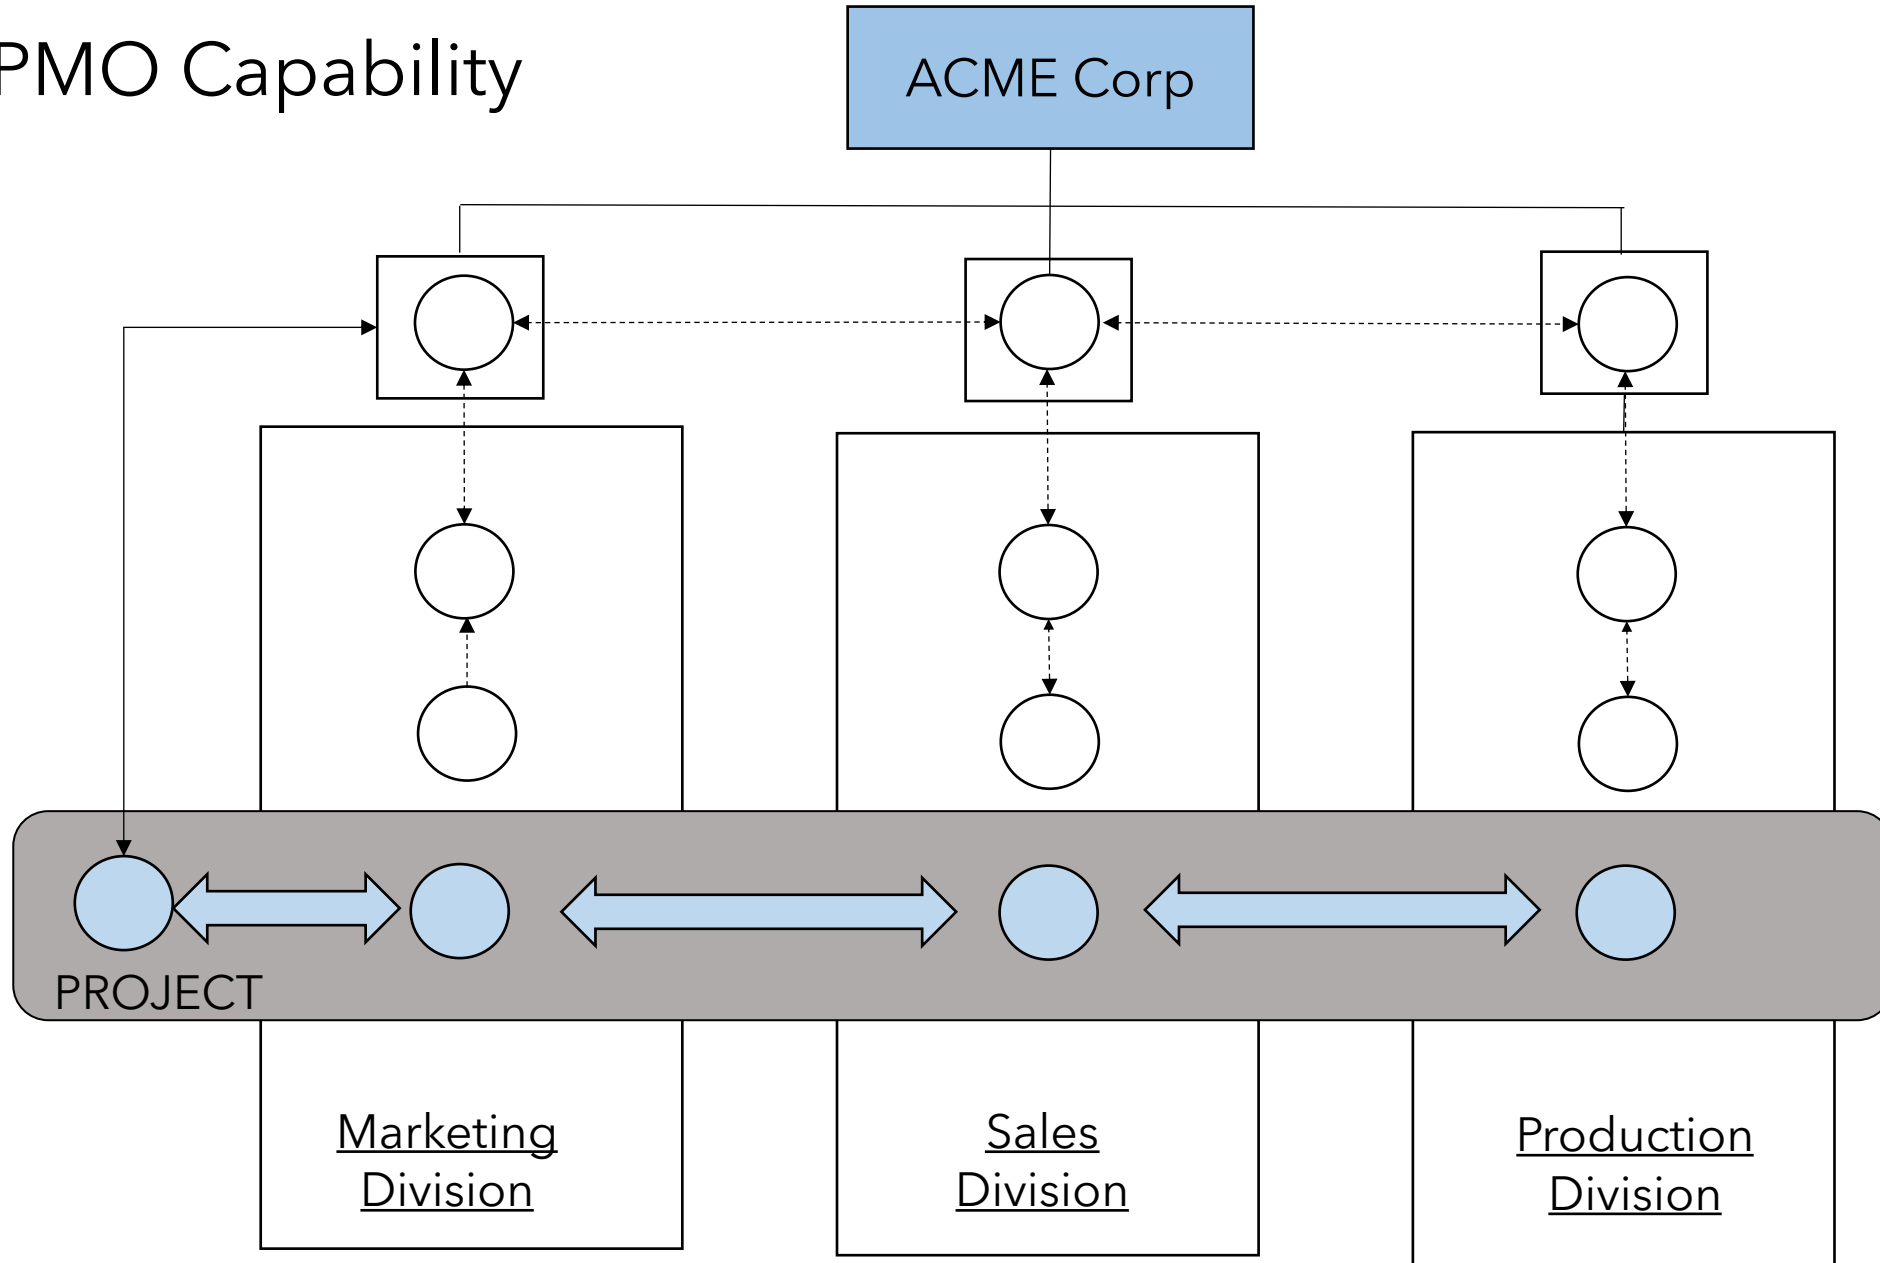

Summary: Agile Rolling Wave Planning

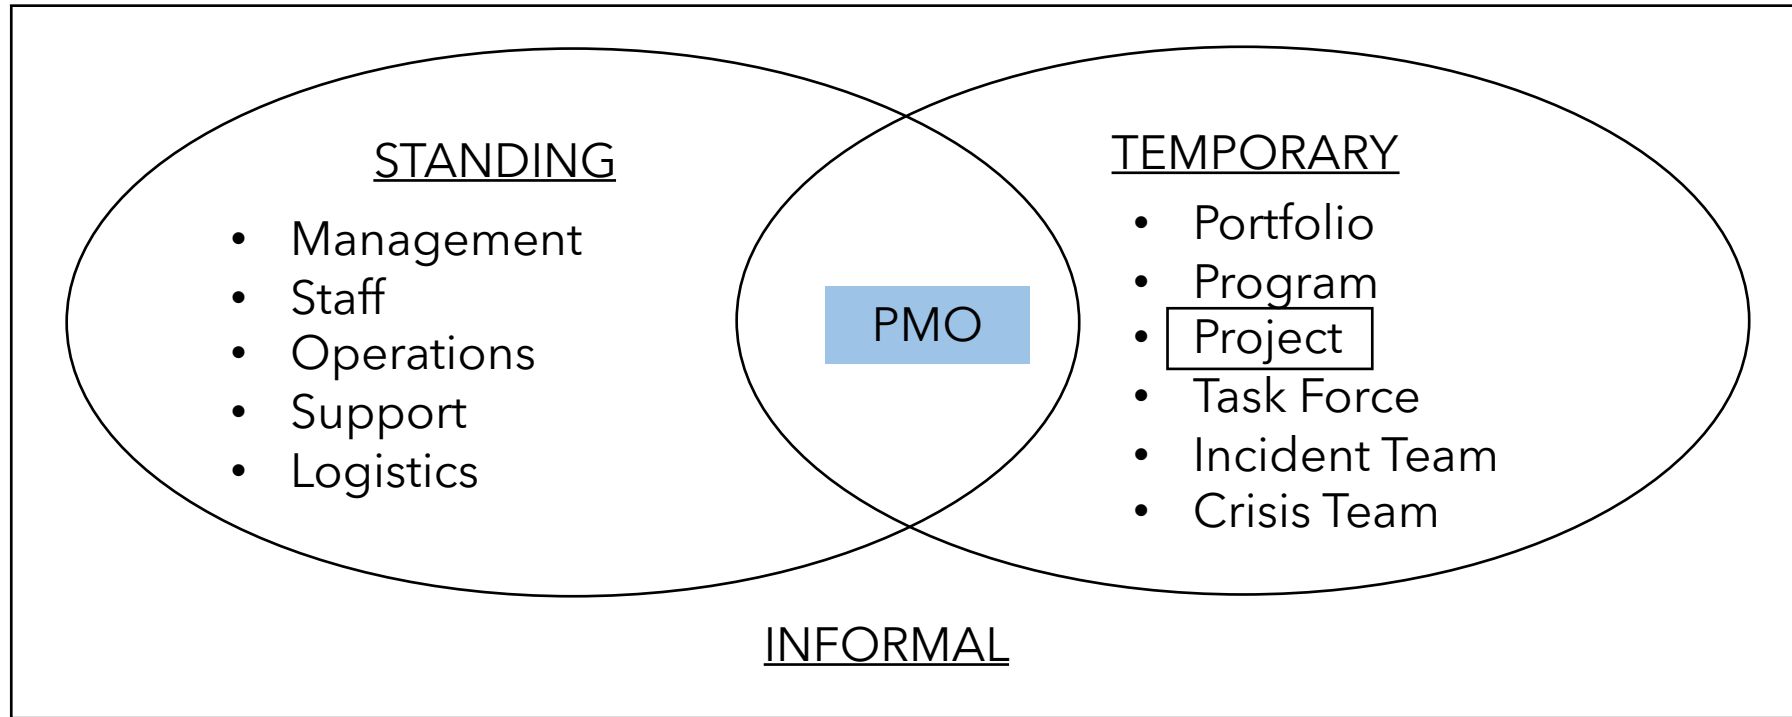

- Multi level, multi horizon, multi technique
- Adaptive and proactive
- Logical counterpart of Power Kanban
- Generalization of agile towards non software projects
- Combines relative and absolute estimation

4. PMO Capability

ORGANIZATION

Experiment

Group 1

Day 1 50 %

Day 2 83%

Day 3 99%

Day 4 100%

Group 2

Day 1 51 %

Day 2 78%

Day 3 98%

Day 4 100%

Repeatability, independency, variable control

Survey A, scale of One to Five (best)

The project was effective

The project achieved its goals

The project was delivered to requirements

The project team was robust

The results were verified

The project supported the company mission

The approach was strategically sound

The team acted responsibly

The chosen methodology was correct

Survey 2

The project was efficient

The project achieved its objectives

The project was delivered to specifications

The project team was resilient

The results were validated

The project supported the company vision

The approach was tactically sound

The team acted accountable

The chosen method was correct

Project methodology

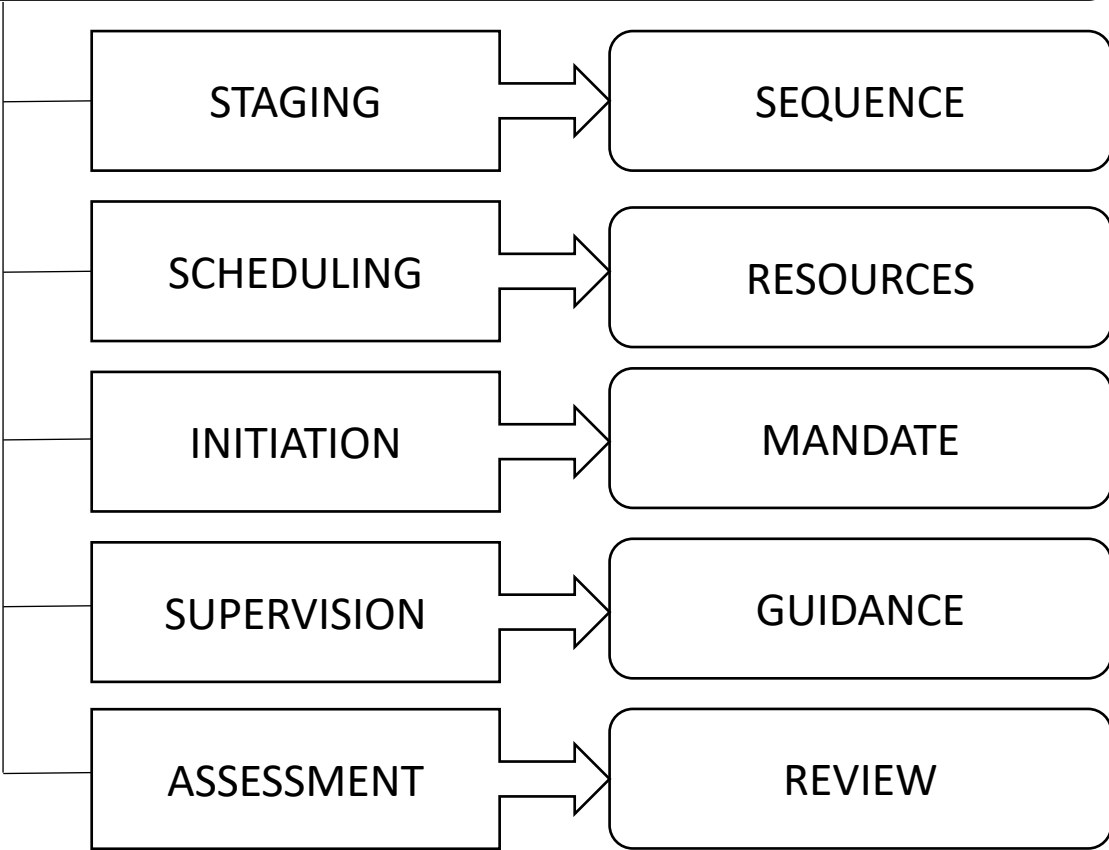

PROJECT CAPABILITY

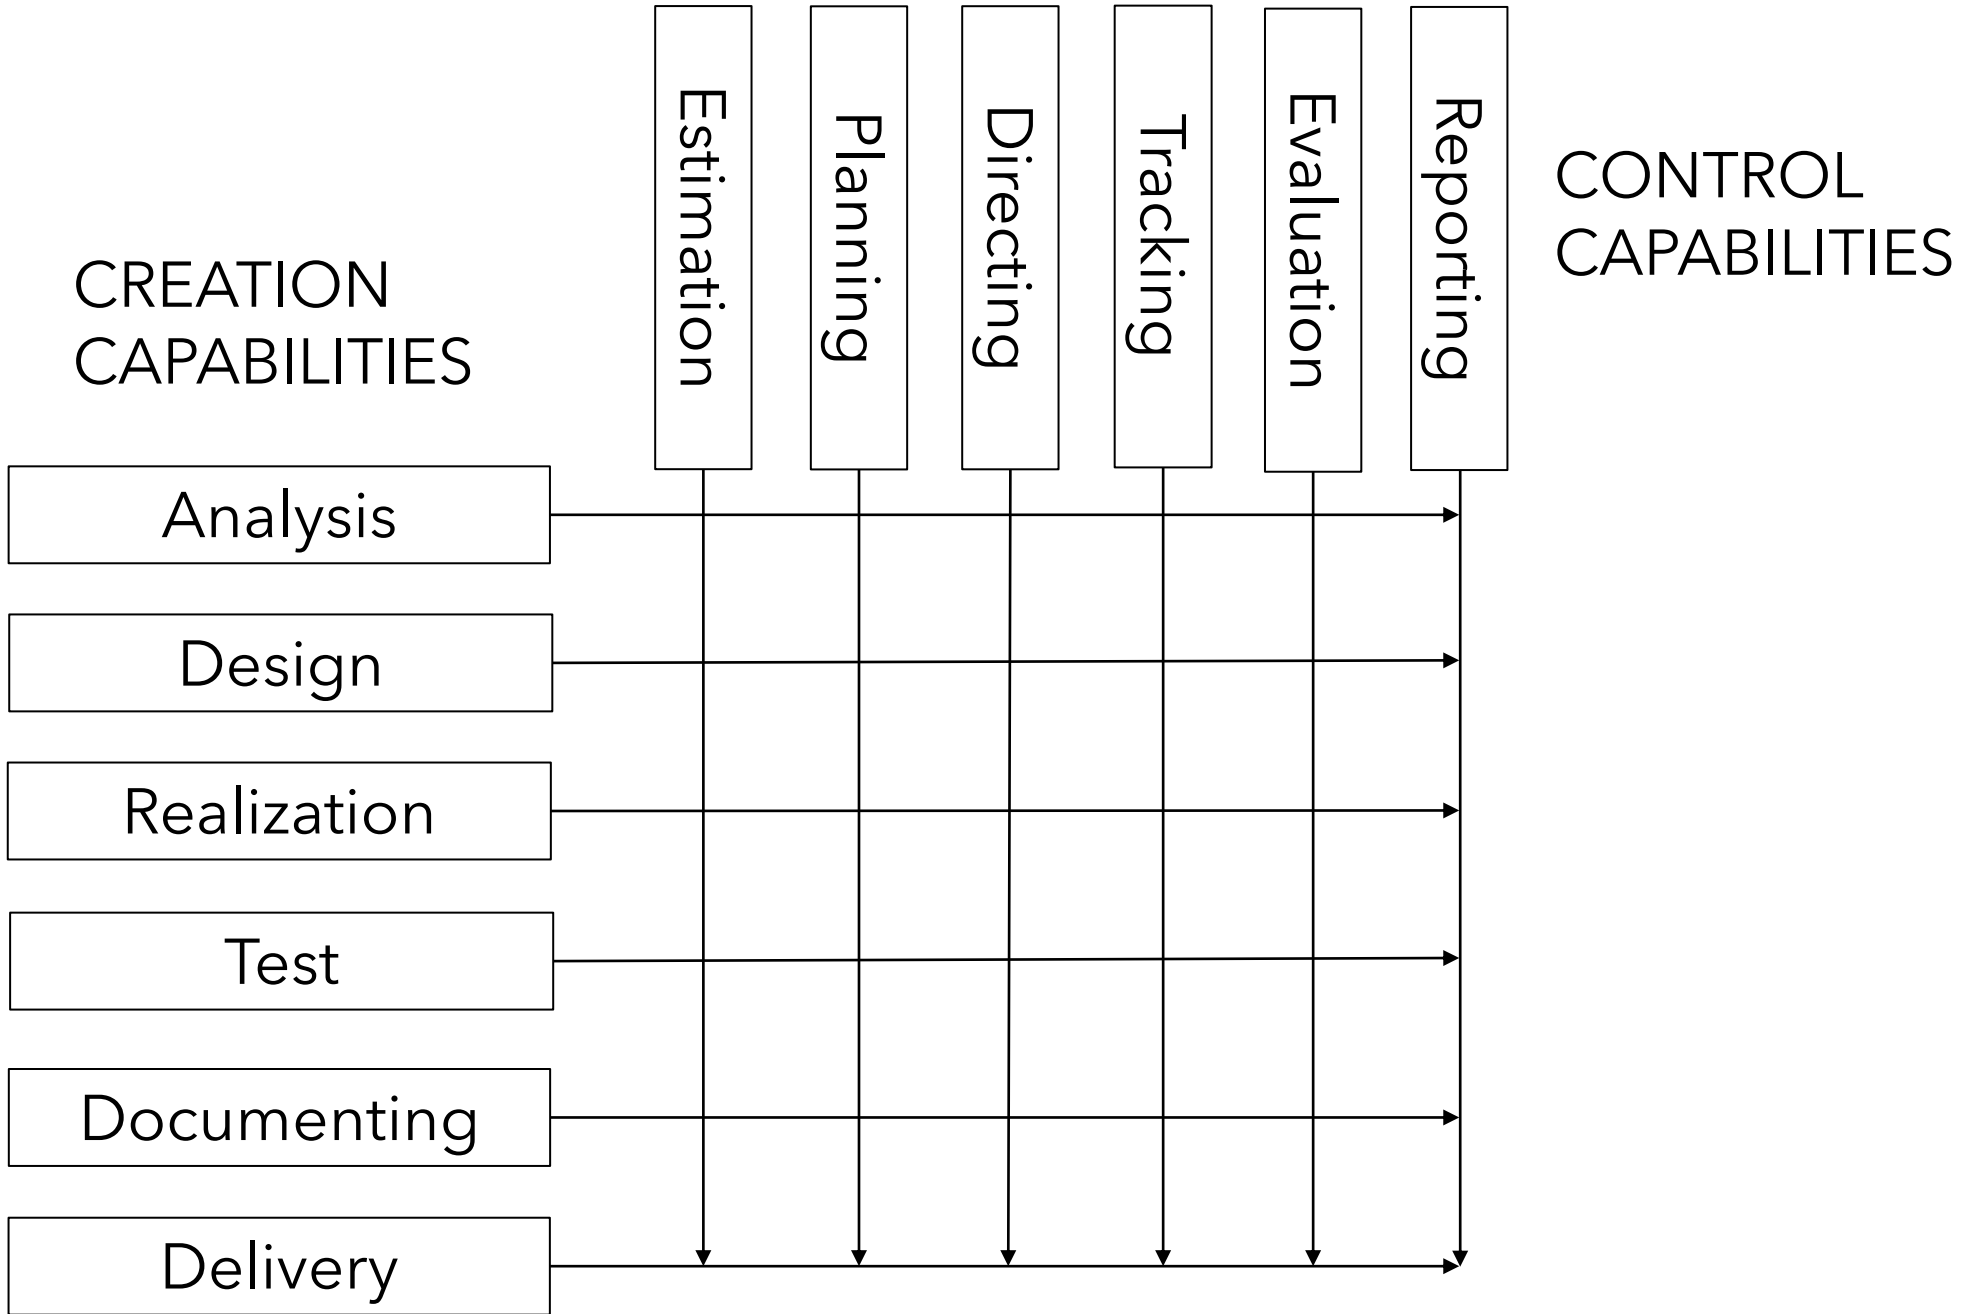

STRATEGIC PROJECT CAPABILITY

TACTICAL PROJECT CAPABILITY

Summary: PMO Capability

Project capability is a catalyst in all business areas

PMO mission is a steady improving success rate

Learning, adaptation, improvement

Project methodology is the vehicle of advancement

Concise concepts are a prerequisite for logical reasoning

Research is challenging due to the unique nature

Correlation is not causation!

Pol

'Agile methodology does not exist'

Thank you!
